

Total Piping Solutions

» PRODUCTS

PIPE

- HDPE
- PVC
- Ductile Iron

PUMPS

(see ISCO Mining Line Card)

VALVES

- Plastic (HDPE & PVC)
- Metallic
- Butterfly
- Gate
- Ball
- Plug
- Check

VALVE STYLES

- Sample Ports

PIPELINE ACCESSORIES

- HDPE Molded & Fabricated Fittings
- Fusion Couplers
- Flex Restraints
- Couplings
- Restraints
- Adapters

HOSE

- PVC
- Silicone
- Rubber

FUSION EQUIPMENT

- Butt Fusion
- Electrofusion
- Extrusion Welding
- Socket Fusion

» MARKETS SERVED

- By-Pass Piping
- Culvert Lining
- Directional Drilling
- Energy/Oil Patch
- Gas Distribution
- Geothermal
- Golf/Turf Irrigation
- Industrial/Power
- Irrigation
- International
- Landfill
 - Bioreactor Piping
 - Leachate Collection
 - Methane Gas Collection

Who is ISCO Industries?

Since 1962, ISCO Industries, LLC is a customized piping solutions provider based in Louisville, KY. ISCO stocks and sells a wide variety of piping materials and provides solutions for various applications throughout the United States and internationally. ISCO is a family-owned, total piping solutions company offering custom fabrication and inventorying large stockpiles of pipe, including a large supply of HDPE pipe, usually within a one day delivery of most projects.

Whether it's a large industrial refinery, a municipal sewer system, or a geothermal vault, ISCO will meet all your piping needs. With projects completed all over the world, ISCO team members have the needed technical resources and experience to design a customized piping solution for your next project.

FABRICATION

If you can draw it...chances are ISCO can fabricate it. We are the experts in fabrication of HDPE structures and fittings. We regularly fabricate HDPE for lining tanks, sumps and trenches – and specialize in HDPE manholes, structures and pipe perforation.

FUSION EQUIPMENT

ISCO offers the industries largest fleet of fusion equipment available from 1" to 65" for purchase or rental. We specialize in McElroy fusion equipment. ISCO is also a distributor of Fast Fusion equipment. And, we back it all up with the best support service that includes pre-servicing so it's user-ready; parts and service on demand, servicing and rebuilding of your existing equipment; and on-site technical consultation and training if needed. There's even an ISCO Fusion Hotline staffed by qualified fusion technicians, on hand to answer any questions about equipment operation, fusion techniques or to address problems.

FUSION DEMONSTRATION AND TRAINING

ISCO is the leader in HDPE education and training. Talk to your local ISCO sales representative to learn more about training opportunities and ISCO's McElroy certified trainers. ISCO also offers the Fusion manual, with full-color, step-by-step instructions with pictures on how to fuse HDPE in an easy-to-read booklet. The manuals are available in English and Spanish. A metric version is available as well.
