ISCO Industries announces opening of Johannesburg sales and distribution facility

(LOUISVILLE) July 2007 – ISCO Industries, one of the nation’s largest distributors and manufacturers of polyethylene (HDPE) piping products, has announced the opening of a sales office and distribution facility in the Johannesburg, Michigan area.

The facility consists of offices, pipe, fittings and fusion equipment storage. This new facility is full service; offering pipe, fittings & accessories ranging from 2” up to 18”, a full line of McElroy fusion equipment for sale and rent and on-site field service technicians. A Fast Fusion machine will also be stored there for rental.

With this addition ISCO Industries continues to take an impressive expansion track having added facilities in Stockton, CA, Dallas, TX, Emporia, VA, Mableton, GA and International locations in Crossfield, Canada and Australia within the past year.

“This JoBurg facility, in combination with our Howell, Michigan location, gives ISCO an excellent base to work from in service to our many customers in Michigan,” said Mark Kirchdorfer, Vice President of ISCO Industries. “Our move into the Northern part of the state is a direct result of the rapidly growing market of gas gathering,” he said.

ISCO sales and technical representatives will be servicing the new facility, including Steve Cantwell, Regional Sales Manager. He can be reached by calling (248) 320-3604 or toll free at 1-800-345-ISCO (4726). The address of the new facility is 10915 Hetherton Road, Johannesburg, Michigan.

ISCO Industries, headquartered in Louisville, Kentucky, stocks and sells HDPE pipe, fittings and fabrications for various industrial, municipal, environmental, golf and landfill applications throughout the United States and Canada. The company also rents, services and sells fusion equipment. Along with the addition of this JoBurg facility, ISCO has stocking locations in the states of Maryland, Colorado, Connecticut, Washington, Michigan, Alabama, Florida, Kentucky, South Carolina, Oklahoma, Texas, Wisconsin, Utah, Arizona, Nebraska, Illinois, California, Virginia, Georgia and Alberta, Canada – inventorying large stockpiles of pipe, usually within one day’s delivery of most projects.
