ISCO Industries announces opening of Zanesville sales and distribution facility

(LOUISVILLE) August 2007 – ISCO Industries, one of the nation’s largest distributors and manufacturers of polyethylene (HDPE) piping products, has announced the opening of a sales office and distribution facility in Zanesville, Ohio.

The facility consists of offices, pipe, fittings and fusion equipment storage. This new facility is full service; offering pipe, fittings & accessories ranging from 2” up to 18”, a full line of McElroy fusion equipment for sale and rent and on-site field service technicians.

With this addition ISCO Industries continues to take an impressive expansion track having added facilities in Stockton, CA, Dallas, TX, Emporia, VA, Mableton, GA, Johannesburg, MI and International locations in Crossfield, Canada and Australia within the past year.

“The Zanesville facility allows us to further increase the service to our customers in Eastern Ohio, West Virginia and Pennsylvania,” said Mark Kirchdorfer, Vice President of ISCO Industries. “This move is a direct result of the rapidly growing use of HDPE across many applications in that part of the country,” he said.

ISCO sales and technical representatives will be servicing the new facility, including Steve Bredemeier, Regional Sales Manager. He can be reached by calling (614) 419-5457 or toll free at 1-800-345-ISCO (4726). The address of the new facility is 1430 A Virginia Street. Zanesville, Ohio.

ISCO Industries, headquartered in Louisville, Kentucky, stocks and sells HDPE pipe, fittings and fabrications for various industrial, municipal, environmental, golf and landfill applications throughout the United States and Canada. The company also rents, services and sells fusion equipment. Along with the addition of this Zanesville, OH, ISCO has stocking locations in the states of Maryland, Colorado, Connecticut, Washington, Michigan, Alabama, Florida, Kentucky, South Carolina, Oklahoma, Texas, Wisconsin, Utah, Arizona, Nebraska, Illinois, California, Virginia, Georgia and Alberta, Canada – inventorying large stockpiles of pipe, usually within one day’s delivery of most projects.
