

**2009 Quotation for Extrusion Welders EXWELD
MINI SHF and MINI SHF-C**

Single Hand Operation

MINI SHF

MINI SHF-C

- Suitable for quality welding of PE, PP, UHMWPE and PVDF up to 3/8" thick
- Barrel temperature controlled by state-of-the-art temperature regulator located in separate control box
- Maintenance free DC controlled drive motor with variable welding speed, lowest operating noise
- Self-contained preheater eliminates need for external air supply or other form of preheat device
- Solid, durable construction
- Easy to operate
- Exchangeable PTFE welding shoes are easily machineable to determine weld size and configuration
- Optional heavy-duty shipping case and stand available

TECHNICAL DATA:

Power Supply:	120V or 230V, please specify
Power Consumption:	1360W MAX
Maximum Output:	0.7 Kg/hr (1.5 lbs/hr)
Weight:	3 Kg (approx 6.6 lbs)
Length:	19" (Mini SHF) 16.75" (Mini SHF-C)
Rod Size:	4 mm (5/32")

Warranty:	12 months
Delivery Time:	Ex Stock
Payment Terms:	Net 30 days (with credit approval)
